## DETAILED ACTION

### *Response to Amendment*

The reply filed on 12/22/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The substitute specification, filed 1/4/2006, must include a marked up copy showing deletions (by bracketing or strikethrough) and insertions (by underlining) based upon the originally filed specification (Please note that the originally filed specification in this case was filed 01/07/2005, under the title “Arrangement for connecting an optical waveguide to a microprocessor-controlled electrical appliance”) as well as a clean copy of the specification with the insertions/deletions being already made. Even though translation mistakes were made in the original presentation of the application, it is Applicant’s responsibility to present any amended subject matter that corrects the originally filed claims and specification by amending or canceling the originally filed claims and specification. Applicant is cautioned against the addition of new matter.

In addition, a new oath or declaration is required. This application presents a claim for subject matter not originally claimed or embraced in the statement of the invention. Note that the originally filed claims dealt with An arrangement for connecting an optical waveguide to a microprocessor-controlled electrical appliance whereas, the later filed claims included subject matter not embraced in the original oath or declaration, i.e. Method for signaling an instruction to modify the coding of a user data connection section termination of a media gateway. A supplemental oath or declaration is required under 37 CFR 1.67. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP 602.01 and

Art Unit: 2883

**602.02.** This new oath or declaration must state that applicants have reviewed and understand the claims and specification as amended (give specific dates of the amendments).

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
